AMET

Advanced Manufacturing Engineering Technologies

ADVANCED LATHE WELDING SYSTEMS

Tandem Circumferential Weld Lathes

AMET welding systems support all GTAW, PAW, SAW, and GMAW process requirements.

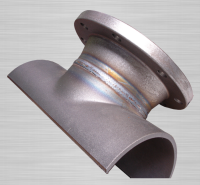

- Complete XM Controller integration to all motion controls and peripheral devices
- Single or Multi Torch integration (Tandem)
- Pre and Post Weld Automated Torch moves
- Pneumatic Tailstock extension or Synchronized Servo Tailstock for open Root applications
- Integrated Data Acquisition and Tolerance Checking
- Custom Systems

Heavy Duty Circumferential Weld Lathe (CWL)

Industrial Lathe Packages

"Continuous root-to-cap without tacking on open root joint prep's"

Providing "Turn-Key" Automated Welding Systems with the World's most Advanced Controllers

20 Years of Automated Welding Excellence
