# AMET

*Advanced Manufacturing Engineering Technologies*

## AUTOMATED SUBMERGED ARC WELDING SYSTEMS

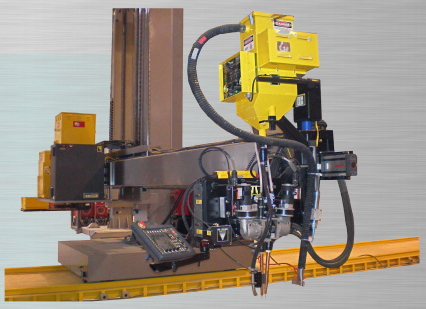

## WIND TOWER MANUFACTURING EXCELLENCE

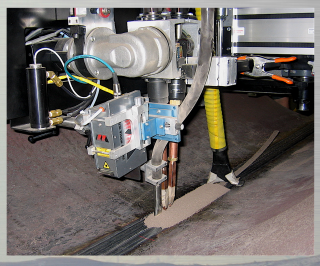

**Complete "Turn-key" systems.**

- Single or Tandem Wire Process
- Single or Multiple Weld Heads
- Circumferential, Longitudinal, and Flange Welding Stations
- Continuous Root-Cap Welding
- Integrated Laser Height Control
- Integrated Laser Joint Tracking
- Integrated Process Monitoring
- Networked Factory Information
- Precision Industrial Manipulators and Turning Roll sets

**ADVANCED CONTROL**
A single controller provides a single easy to use interface for programming and control of all welding motion, flux delivery, and multiple SAW power supplies.

**PROVEN PERFORMANCE**
A proven history of providing "world-class" automation solutions and support to meet your critical manufacturing requirements now and in the future.

**Integrated META Laser Sensors**

AMET is a proud automation partner and integrator of META Laser and Optical Vision Systems. Meta Vision Systems is the world leading supplier of laser seam tracking systems.

META Welding with Vision for 25 years

**20 Years of Automated Welding Excellence**
